

The Sharper Turtle

Titler Pro Tutorials (5/8/18)

Working with font entry and formatting

- [How to do basic text entry for titles \(1.0 and above\)](#)
- [Change color, gradient, or use a graphic with your text](#)
- [Add shadow and outline to your text characters](#)
- [Rotate your text on multiple axes for a unique effect](#)
- [Use extrusion to add 3D depth to font faces and outlines](#)
- [Customize the formatting of lines, words, and individual letters](#)
- [Determine which content is on the top or bottom](#)
- [Using the star crawl animation feature for a 'Star Wars' effect](#)

Key Frames

- [Use key frames to give the illusion of rotation and motion with an imported graphic](#)
- [Rotating and moving an object in your title](#)

Graphic Objects

- [Bring in a graphic, rotate it, and add a transition](#)
- [How to make a horizontal line magically expand](#)

Time Savers

- [How to save and reuse titles in multiple projects](#)
- [Matching title length between in Titler Pro and your host program](#)

Advanced Formatting

- [Format a paragraph by using the colors of an image in the design of the paragraph](#)
- [Add a solid or gradient background or use an image of your choice](#)
- [Loading and modifying rectangle shapes in your titles](#)
- [Additional tips on using a predefined rectangle shape](#)
- [Create accents by key framing flares that highlight parts of your title](#)
- [Accent your presentation with the spotlight filter presets](#)
- [Adjust the spotlight filter to achieve interesting results](#)

Transitions and Animation

- [Using and customizing seven presents of the infinity animation with paragraphs](#)
- [Adjust attributes of imported graphics using key frames](#)
- [Precisely control the attributes of a graphic using key frames](#)
- [Modify the attributes of text using key frames](#)
- [Preview of the six presets in the float and pop animation category](#)
- [Customize any of the six 'Float and Pop' transition presets](#)
- [Using the six 'Turn' preset animation variations](#)

The Sharper Turtle

Titler Pro Tutorials (5/8/18)

- [Customize any of the six 'Turn' transitions](#)
- [Discover how the various 'active camera' effects impact graphics or text](#)
- [Use the colored pencil effect to change objects in your title](#)
- [Tips on using more than one transition or animation in the same text paragraph](#)
